

# Autonomous Patient Access

Always-on AI Agents & Copilots for scheduling, referral intake and patient support to improve access, revenue & cost within 90 days

## AI Front Door for Patient Access

Comet's AI Agents act as the first point of engagement for access centers, triaging requests, scheduling appointments, and resolving common inquiries across channels. Copilots automate referral intake and support human teams with next-best actions, while ensuring faster, more efficient patient access.

-  70% Automation of Routine Interactions
-  30%+ Boost in Referral & Appointment Conversion
-  38% Increase in Agent Throughput

**“We’ve streamlined our spend, so we’re able to deliver the same results with less dollars. They provide accessible data and are able to connect it in a way that’s meaningful. It’s made a big difference for our performance and spend.”**
